## **Regenerative Medicine Foundation Announces 2011 Translational Regenerative Medicine Forum**

FOR IMMEDIATE RELEASE

September 9, 2010- Winston-Salem, NC—The Regenerative Medicine Foundation today announced the 2011 Translational Regenerative Medicine Forum will take place April 6–8 at the Ronald Reagan Building and International Trade Center in Washington, DC.

“After a successful inaugural meeting in 2010, we are thrilled to announce the 2011 dates,” says DaLaura L.S. Kader, LLB, Vice President of Strategic Initiatives at the Foundation. “Last year, the Forum drew an impressive group of over 400 individuals from 19 different countries together to discuss, coordinate, and plan how we can move the science of regenerative medicine forward. Through collaborations formed at the 2010 Forum, we plan to convene the stakeholders of regenerative medicine at the center of the United States policy and regulations to further advance the science.”

Forum topics to include Translating the Promise: Patient Success Stories, Healthcare Reform and Regenerative Medicine, Changing Biopharmaceuticals: Commercialization Strategies and Challenges, and more. Early bird rates available now until November 19. To access the full agenda and to register for the Forum, please visit [www.rmconferences.org](http://www.rmconferences.org) or call 866-831-3244.

### **About the Regenerative Medicine Foundation**

The Regenerative Medicine Foundation ([www.regenerativemedicinefoundation.org](http://www.regenerativemedicinefoundation.org)), launched in 2005, is an internationally-focused, not-for-profit organization created to enable the advancement of new treatments and therapies based on regenerative medicine, and ultimately, to realize the goals of personalized medicine. Through educational programs, translational conferences and public policy initiatives, the Foundation advocates for increased medical research, promotes the training and education of scientists, and facilitates the translation of therapies to patients. The Regenerative Medicine Foundation maintains Corporate Council, an annual membership program for leaders in the field of regenerative medicine. For more information visit <http://www.regenerativemedicinefoundation.org/ccouncil.php>.
